

Photo Instructions

Thank you for taking time to update your Baptist Missions profile picture.

As we continue to update Baptist Missions literature we want to try and keep the design and imagery as consistent as possible.

Therefore, can we please ask that you consider the following before you take your snap!

- Please arrange yourselves in such a way that we are able to crop the image into a square (see examples) →
- When taking your picture, please do not squash yourselves into the picture. Allow some room around the edges of the image. This will make it easier when we crop them.
- Take landscape and portrait pictures
- Once the picture is taken, please send the original image. Please do not crop or edit the image in any way.
